

# Projexis Workflow Software

We use Projexis an agile program management and reporting tool with the power to deliver program workflow efficiency speed and accuracy.

## Why Projexis?

### Cut your costs dramatically:

- Flexible pricing
- Paperless document management
- Automated processes

### Rest assured your data is secure:

- Rigorous penetration testing
- Through security audits
- Data encryption available where appropriate

### Achieve your goals sooner:

- Increase team collaboration with management dashboards
- Track KPIs and metrics
- Respond to operational problems before they occur

## Projexis Field App Teams Stay Connected

### Customizable field data collection

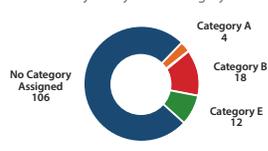

- Works offline and syncs when connected to the internet
- iOS, Windows and Android

### Projects Categories

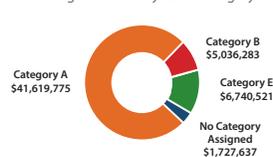

Projects by Subgrantee

Projects by FEMA Category

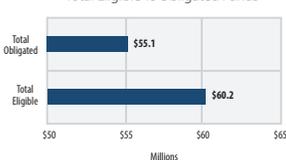

Obligated Funds by FEMA Category

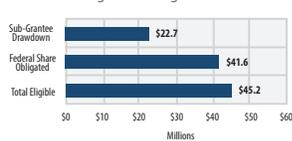

### Eligible and Obligated Funds

Total Eligible vs Obligated Funds

Category A - Debris Eligible vs Obligated Funds

Amount Obligated

## The Projexis Reporting Engine (PRE)

- Real-time dashboard reporting and analytics.
- Seamlessly integrates existing data from a variety of sources.
- Accessed online and tailored to specific functional groups and management teams.
- Can integrate or embed a GIS Mapping widget.

# Adaptable Solutions for Your Unique Needs

## Robust Capability

We leverage the secure, scalable, disaster recovery capable Amazon Web Services Architecture (AWS).

## Application Architecture:

- net 4.5 frameworks using C#
- MVC 6.0
- Angular for side scripting
- Responsive theme for mobile and tablet use
- Petapoco for ORM
- SQL Service 2016 relational database

## Application Security:

- Multi-tier decoupled architecture for security and scalability
- Completely separated code base and data exchange via ISON driven API
- One-way password encryption using hash and salting
- Row-level encryption of PR information

## Easy Account Creation:

Quick and efficient account creation for applicant, cases or users. Dynamic account utilization with system notification integration.

## Dedicated Technical Support

Our full-time helpdesk team is available to respond to user access requests, problems, user guidance, data access requests, user access issues and other user-facing problems.

## Project Highlights

### Louisiana Governor's Office of Homeland Security and Emergency Preparedness (GOHSEP)

Established and managed the material receiving, warehousing, tracking, and distribution system of medical supplies at the Morial Convention Center in New Orleans in support of the state of Louisiana's COVID-19 response.

### Virgin Islands Housing Finance Agency (VIHFA)

Provided supply chain management services to the United States Virgin Islands for the FEMA STEP program resulting from Hurricane Irma.

### New York City Housing Recovery Office Superstorm Sandy Project

Data management including project status, QA/QC, construction inspections, change orders, requests for information and other data with real-time dashboards and drill-down reports.
